

Kreuger, J. 1996. Pesticides in stream water within a small catchment in southern Sweden. Report from the 'Vemmenhög-project' 1990-1994. Technical Report nr 32.

Errata

Page	Paragraph	Line	Reads	Should read
27	3	1	602	692
29	figure legend		catchmnet	catchment
33			tribenuron-methyl	tribenuron-methyl*
33	bottom line		(µg	(µg/l)
35	2	8	Appendix 5	Appendix 4
35	4	14	irriagtion	irrigation
45	1	5	courtyard,	courtyard (Appendix 5),
45	5	6	which was caused	which possibly was caused
57	6	8	(1978))	(1978)

Amendment

Page 12. Tribenuron-methyl, only analyzed during May-June 1993 and 1994, was not included in either of the two analytical methods described. Analysis of tribenuron-methyl was performed using liquid-liquid extraction after pH-adjustment, followed by HPLC-MS.

Page 46. Tribenuron-methyl loss in 1994 is calculated for May-June.

Appendix 1. All values refer to pesticide application in the whole catchment, i.e. in the area draining to sampling site LU12. Information on applied amounts of pesticides in the area draining to sampling site UT10 during 1992-1994 is given in Appendix 8.

Appendix 10. Sample 'LU12 (1990:1)' was collected during May-July 1990 and sample 'LU12 (1990:2)' during June-July 1990.
