

Thesis summary writing workshop

at 9:15-14:45 on September 17th, 2024, at Campus Ultuna, SLU and via Zoom.

Welcome to a thesis summary writing workshop for PhD students! The workshop is jointly organized by The NJ-faculty Research Schools Focus on Soils and Water, Ecology – basics and applications, Organism Biology, Society and Landscape, Sustainable Systems for Food, Energy and Biomaterials, and is open for all PhD students at SLU.

The aim of the workshop is to give insights and inspiration on how to write a thesis summary. The topics covered are legal issues concerning the thesis summary writing process, writing inspiration, and discussions on “best practices” for writing a thesis summary.

Application and information

Register by email to philip.jacobson@slu.se on the 2nd of September at the latest. Please state your department and if you wish to attend at Ultuna or via video (Zoom). If you wish to attend at Ultuna, please state allergies or food preferences (lunch and fika will be included). More information and schedule can be found on the research school's homepage.

For further questions, please contact the workshop organizer:
