

# Overall description and contact details

Project / trial name:

Client:

Contact details:

Overall aim of the project:

Aim of the trial:

Trial implementation period: from-to:

General trial design / statistical model:

Number of treatment factors:

Number of treatments  $F_{1...n}$ :

Replications:

Bufferplots:

Surrounds the outer edges of the trial:  Surrounds the outer edges of the block:  Surrounds each plot:  Other:

Plot size:

Net requirements for yield determination:  m<sup>2</sup> Net requirements for other measurements and sampling:  m<sup>2</sup>

Fixed trial site: Yes  No

Organic certified production: Yes  No

Requests regarding soil conditions and other site-related factors:

# Field treatments

## Tillage:

Treatment factor specified in PM  The field station's choice based on good agricultural practice  Uniform field treatment as follows:

## Crop:

Treatment factor specified in PM  The field station's choice based on good agricultural practice  Uniform field treatment as follows:

## Fertilization

Treatment factor specified in PM  The field station's choice based on good agricultural practice  Uniform field treatment as follows:

## Crop protection and growth regulators:

Treatment factor specified in PM  The field station's choice based on good agricultural practice

Other:

*Other requirements and limitations of plant protection and growth regulation:*

Weed control:                      Chemical                       Mechanical                       Not allowed

Insecticide application:                      Compulsory                       Allowed                       Not allowed

Fungicide application:                      Compulsory                       Allowed                       Not allowed

Growth regulator:                      Compulsory                       Allowed                       Not allowed

## Other field treatments:

## Supply of agricultural inputs:

Seed provided by:                      Field station                       Client                       Other:

Fertilizer provided by:                      Field station                       Client                       Other:

Pesticides provided by:                      Field station                       Client                       Other:
